Chris Griffin wrote a story.

This tent is pretty amazing dealing with cold weather. There was a time I travelled to Europe, and we camped along the way of my hike to the Alps. It was around 10F at night but we didn't feel too cold thanks to it. The view up there was extremely breathtaking.

Jason Troop wrote a story.

Me and my wife went to Yosemite with this tent in 2012. That was a really fun weekend getaway. We climbed half dome and watched sunrise up there. It was a late fall day so the weather was chilly but the place was peaceful.
